GENERAL INFORMATION

The affairs and general management of FARMINGDALE BASEBALL LEAGUE, INC. are administered by the Executive Board of Officers.

The established policies, operating procedures, and controls of the entire program are under the direction of the President of FARMINGDALE BASEBALL LEAGUE, INC. and the Executive Board.

The local leagues can operate under a charter granted by Little League Baseball, PONY Baseball, Connie Mack, Babe Ruth, as decided by the Executive Board. The leagues are autonomous to the degree that they may elect their own officers and carry out related functions, but, must adhere scrupulously to the rules, regulations, and operating procedure established by FARMINGDALE BASEBALL LEAGUE, INC., and the Constitution and By-Laws of FARMINGDALE BASEBALL LEAGUE, INC.

Experience of the Executive Board in making the benefits of this program available since 1951, has resulted in a sound and proven framework of workable local league organization and procedures. This is flexible enough to accommodate conditions under which local leagues may operate.

FARMINGDALE BASEBALL LEAGUE, INC., its Executive Board and Executive Committee, is independent, but, due to the fact that this program is financed, in part, by the taxpayers of this community under the direction of the Farmingdale Youth Council, the Board must adhere to and comply with certain standards set by Youth Council. One of these, is that every boy and girl wishing to play baseball or softball, will have the opportunity afforded him or her, when complying with the registration procedures.

The following rules, established by the Executive Committee of FARMINGDALE BASEBALL LEAGUE, INC., have been adopted with the purpose of gearing the entire program to a standard procedure, regardless of leagues or level of play in the community.

The rules set forth in these Universal Rules will supersede all regulations set forth by chartered leagues and local leagues, with the exception of tournament play. All leagues and teams must comply with and adhere to all rules set forth in the Universal Rules. For Boys Leagues, any issues not covered by these Universal Rules shall then be primarily governed by Pony Baseball Rules and secondarily by Major League Baseball Rules. For Girls Leagues, any issues not covered by these Universal Rules shall then be primarily governed by ASA (American Softball Association) Rules.

No local league or teams may change or have the option to change any rules set forth in this publication. Violation of rules or protested games will be submitted to a Protest Committee, as appointed by the President of FARMINGDALE BASEBALL LEAGUE, INC. Violations of rules, in many cases, as spelled out in the Universal Rules, may result in forfeiture of a ball game. Decisions by the Protest Committee cannot be appealed, and as such will be considered final.

Before exercising a Pilot Program, the program must be presented to the Executive Committee for their approval by a simple majority. The section of the Universal Rules that would be in conflict to Pilot Programs will not be enforced.

ARTICLE 5 – Player Draft

Ratings and Drafting for AAA, Boys Juniors, Boys Seniors, Boys Majors, Girls Junior and Girls Seniors Leagues:

- A. The local league director will be responsible for conducting the Ratings of players within their leagues, and for conducting a draft of those players by the managers in each respective league, in accordance with the Universal Rules. Any draft conducted by a league director not in accordance with the procedures outlined herein shall be reported immediately to a member of the Executive Board and if in the opinion of the Executive Board, such discrepancy is material, the draft will be voided and a new draft, in accordance with the procedures outlined herein, shall be conducted.
- B. RATINGS - All players registered prior to scheduled ratings shall participate in the ratings, without exception. Only the league director may exempt a registrant from ratings, for a valid reason. All registrants participating in the ratings will be rated by managers and by the league director on a scale of 1 to 10. If a registrant has been exempted from participating in the ratings, by the league director for a valid reason, or if a child registers after the ratings is held, the child shall be rated by the league director, who will base such rating upon information obtained by him relating to the child's capabilities and baseball experience, preferably by physical rating if possible. In the event that the league director is not able to obtain sufficient information to determine a rating, that child's rating shall be "U" for unrated, and all children rated "U" shall be assigned by lottery by the league director, after all rated children have been drafted.
- C. After all ratings have been compiled and averaged, each child registered to a respective league shall be assigned a sequential number based on his average rating, numbers to start with "1" (for a child with the best average rating) continuing to the highest number, that being the number of children registered for the league. The league director shall have the final "say" on the number assigned to each child, and shall be the sole person responsible for resolving any "ties."

- D. All children registered for their respective league shall then be divided into a number of groups, the number of children in each group being equal to the number of teams to be fielded that year in that league as determined by the league director. The first group shall be comprised of the child assigned the number "1" and the next best children until the group is complete, and all subsequent groups shall be filled with the next highest rated children until all groups are complete. Each group shall then comprise a "draft round" for purpose of this article. The order of selection for Round 1 shall be determined by lottery and once established, the order shall be inverted every round, for example, if there are twelve Teams, the drafting shall proceed as follows:

ROUND 1:

1 2 3 4 5 6 7 8 9 10 11 12

ROUND 2:

12 11 10 9 8 7 6 5 4 3 2 1

ROUND 3:

1 2 3 4 5 6 7 8 9 10 11 12

ROUND 4:

12 11 10 9 8 7 6 5 4 3 2 1, etc.

- E. Before "round drafting" is commenced, each manager must select his child, and if he wishes to protect one coach's child he shall select that child at that time. These children will be assigned to that manager's team and that team shall lose its pick in the "round" where those children had been assigned based upon their rating. In the event that both the manager's child and coach's child have been selected and both were in the same draft round, that team shall forfeit its selection in the next round.
- F. In the event that two siblings are registered in the same league, the manager that selects one sibling must select the second sibling in the round in which he is assigned based upon his rating. In the event that both siblings are assigned the same draft round, the team that selects them shall forfeit its selection in the next round.
- G. After all selections as set forth in Section 5 of this Article have been made, round drafting shall commence, in the order as previously picked by lottery, with each team being afforded one selection per round, unless the pick has already been used (under Section 5 or Section 6). In round drafting, a manager may pick any child registered for the league who has not been previously selected, except the unrated players.
- H. All trades will be transacted at the conclusion of the draft and must be Approved by the league director.
- I. Players registered after the draft has been conducted will be assigned to a team by lottery amongst those teams with the least amount of players at the time of the player's registration
- J. In the discretion of the league director, Boys' Seniors and Juniors may use consensual ratings for their draft. (*March 2007*)

- A. Besides the umpire, any member of the Executive Board or the Executive Committee, for the purpose of safety, will be the only persons authorized to stop or suspend any game regardless of the level of play, if he or she feels said game is being played or conducted under unsafe conditions, or managers, coaches or umpires are not complying with established safety rules. Any league official, who observes a violation of any safety rule, shall take immediate action to correct the violation.
- B. Every manager, coach and umpire must comply with and enforce safety rules.
- C. All spectators must comply with all safety rules.
- D. Batters, base runners and player coaches must wear helmets as required.
- E. No bat swinging except at the plate and in the on-deck area.
- F. On-deck batters will be in the on-deck area wearing a helmet as required.
- G. There will be only one batter in the on-deck area at one time.
- H. Managers and coaches shall instruct players not to throw the ball until the receiver is ready.
- I. Managers are to set aside an area for their dugout. Players will be required to stay in this designated area. No wandering will be permitted during ball games.
- J. Managers, coaches and umpires shall keep all persons away from behind the backstops. When requested to do so by managers, umpires will stop the game until this condition is corrected. *(Amended March 7, 2000)*
- K. There will be no throwing of bats or helmets. After a warning, if a player continues to do so, said player will be ejected for the game.
- L. No bike riding on ball fields while game is being played.
- M. Only official equipment issued by FBLLI will be permitted in any game (See Article 9).

- N. Managers and coaches are to instruct their teams that there will be no ball playing unless manager or coach is present.
- O. If a player is removed from a ball game, the player must remain with his or her team until the game is completed - unless the player is injured or ill.
- P. No jewelry is to be worn during practice or games. Notwithstanding the foregoing, new piercings are permitted provided they are covered with band-aid or tape. (*Amended March 2006*)
- Q. All play will stop until a violation is corrected.
- R. The following rule, usually referred to as the Pete Rose Rule, will be in effect in all Farmingdale local league play: A base runner will be called out if the runner does not either: slide, give himself up, or attempt to get around a fielder who is in position to catch a thrown ball to a base, or who has the ball and is waiting to make a tag. If, in the umpire's judgment, the runner was deliberately attempting to use excessive force, then the umpire may also eject that runner from the game.

ARTICLE 14 - Scheduling Games

The local league Director has the authority to schedule his/her season games, subject to Article 9(c). League Directors are responsible for the rescheduling of rained out or postponed games, and games may not be rescheduled by agreement of the managers without the consent of the Director. All World Series, Playoff or Local League All-Star games must be played to completion except for the league run rule. ("Official" games shortened by rain or darkness must be completed, except as contemplated by Article 17 F herein. Amended March 2004)
(*Amended March 7, 2000*)

ARTICLE 15 - Starting Times

Game starting times will be selected by the local league Director as published in his or her own schedules. Players and all adults involved are to report to the field before scheduled start times.

- A. Prior to the start of each game, the visiting team shall be provided the playing field for ten (10) minutes of pre-game practice, beginning at ten (10) minutes prior to the start of the game. The home team shall be provided the playing field for ten (10) minutes of pre-game practice, beginning at twenty (20) minutes prior to the start of the game. Only one (1) team may occupy the playing field at any given time prior to the start of the game. Either team may occupy the playing field should the other choose to decline any portion of their respective pre-game practice time.
(*Amended March 7, 2007*)
- B. At the scheduled starting time, the umpire will call "PLAY" from the playing field, at which time play is to begin.
- C. FOR AAA, BOYS JUNIORS and BOYS MINORS LEAGUES ONLY:
Games can be started with eight players. In that event, the ninth player in the continuous batting order becomes an "invisible" player and as such becomes an automatic out* when that position comes up in the batting rotation. If that position in the order becomes the third

out in an inning, the inning is over. The exception is that the game CAN NOT end with the automatic out. In that event, the ninth position in the batting order is skipped. If the players arrive after the game is started with eight players, the ninth position is filled with the first arriving player and there is no penalty. Each arriving player becomes the tenth player, eleventh player, etc. Once a team has nine players in the game, the team CAN NOT go back to eight players, with the exception of when a player is removed from the field because of injury. At no time can a team play with less than eight players, under any circumstances. If such occurrence happens, the team attempting to do that automatically forfeits the game. In the event a team is allowed to start a game with eight players and the opposing team has nine players, and the team with nine players loses a player (injury, player leaves, etc.) the game shall be allowed to continue. That is the only circumstance in which a team can drop from nine to eight players other than a player being removed for injury.

FOR BOYS SENIORS and BOYS MAJORS:

Games can be started and played with eight players. There is no specific penalty for playing with 8 players.

(Amended February 2, 2010)

- D. In the event a team does not have 9 players or cannot muster a manager or coach, a grace period of twenty (20) minutes will be given, after which a forfeit will be called. Any adult may assume the duties of a coach and the game will proceed. In the event of a scheduled doubleheader, the waiting time shall be 20 minutes from the scheduled start of the first game before declaring the first game a forfeit, and 35 minutes from the scheduled start of the first game before declaring the second game a forfeit, if a ninth player does not arrive. The absence of an official umpire will have no bearing on the forfeit.
(Amended March 7, 2000)
- E. Managers are not permitted to make mutual agreements regarding grace periods of game starting times as covered by this Article.

ARTICLE 16 – Umpires

- A. All youth league and Ponytail umpires assigned to FBLI, including league Umpire Coordinators will be under the supervision of the Commissioner of Umpires or FBLI. Umpires will be in complete charge of the games in which they are umpiring. They will enforce all rules and regulations.
- B. The chief umpire and his staff will be the only adults permitted on the playing field during the game, except in the case of injury when both managers will be permitted on the field. The umpire and/or umpires will be the only authority in regard to the ball game in progress.
- C. The league officers will not direct or interfere with the umpire in his management of a ball game.
- D. The umpire should stop a ball game in the interest of safety. It is most important that the managers and the umpires together discuss the ground rules prior to the start of the game to avoid unnecessary disagreements during the game.

- E. A clear-cut understanding of when the game will be terminated according to the rules set forth by the league, e.g., darkness or specified time beyond which a new inning may not start, should be understood and explained before the start of each game.
- F. Once both managers have agreed on the selection of a pick-up umpire, in the case where no umpire is available or scheduled, this umpire will be in control of said game as a regular umpire would.
- G. On a request of the Commissioner of Umpires, local league Directors must supply him with a schedule of games.
- H. The Commissioner of Umpires will have the power to declare a game "no contest" if an unauthorized umpire is assigned by any individual other than himself or any league Director, when a scheduled umpire is present.
- I. The Commissioner of Umpires can request the termination of any umpire's services as an umpire, if he has proof that his umpiring does not meet the standards of FBLLI.

ARTICLE 17 – Players

A boy or girl must play in every scheduled game at which he or she is present under the following rules:

- A. If a boy or girl misses a practice scheduled by his or her manager, or a regularly scheduled game without an excuse or without notifying his or her manager prior to their absence, said manager may bench this player, if he or she desires, by informing the opposing manager before game time, and will not have the option of playing said player once notification is given.
- B. Innings - a manager must play every boy and girl present at the start of a scheduled game as follows:
 1. For Girls Softball see table Section "K" of this Article.
 2. For Boys Leagues see Section "J" of this Article.
- C. In a game that does not complete the required amount of innings, but is still considered an official game, (less than six innings in AA, AAA, Farm,; less than seven innings in Boys (Jr., Sr. and Major), Girls (Jr., Sr.) the player or players who have not completed their required innings in the field and required time(s) at bat must start the next scheduled game, play their required innings in the field and required time(s) at bat, with no exceptions.
- D. Forfeiture - failure to comply with this Article will result in an automatic forfeit when reported to the League Director who in turn will report said protest to the Protest Committee.
- E. World Series and Playoff Games - This Article 17 will apply to all World Series and Playoff Games, regardless of the number of boys and/or girls at said games.
- F. Completed games are determined as a game in which a winner and loser can be determined at the end of the last completed inning. The number of innings for a complete game shall be:

Six innings - Boys AA, Boys AAA, and Girls Farm.

Seven innings - Boys Juniors, Boys Seniors, Boys Majors, Girls Juniors, and Girls Seniors.

If a game is called for darkness, weather or any other unforeseen reason, except injury, it shall be considered a complete game if a winner and loser can be determined after the number of innings listed below.

Four innings – Boys AA, Boys AAA, and Girls Farm

Five innings - Boys Juniors, Boys Seniors, Boys Majors, Girls Juniors, and Girls Seniors.

If the home team is leading after the visiting team has completed the required number of innings to complete the game, the home team shall not bat; however, all players are required to play the minimum number of innings in the field. If a game is called before the required number of innings, yet a sufficient number of innings have been played to have a complete game (example: A boys major game is called for rain at the top of the fifth inning with the home team leading) all players who have not played the required number of innings shall start in the field in the teams next game. *(As amended March 2004)*

If called during the home team at-bat, and the home team is ahead, the game shall be considered complete, with the home team as winner. **Otherwise, the score shall revert to the end of the last completed inning, and the winner/loser determined by that score.** *(Amended March, 2005)*

- G. At the time line-ups are exchanged, all players in uniform at the start of the game are presumed eligible for play, unless the manager notifies the other manager that a player by name is sick or injured and will not play. Each manager should advise the other as to how many substitutes he or she has. If a player or players arrive after this has been done, said player or players may be played at the discretion of the manager, in which event, the requirements of Article 17, Section B, must be complied with.

NOTE: AUTOMATIC FORFEITURE AS STATED IN ARTICLE 17, SECTION B, IS SUBJECT TO VISITING AND HOME TEAM OR BOTH AS MENTIONED ABOVE.

- H. At a continued game (a game that has been suspended and the score is tied) managers must play the same players that were playing at the time the game was suspended. If this is not possible due to absent, injured, or disciplined players, the manager will substitute in the following sequence:

1. Players who were playing in suspended game and then were replaced (first out, first back)
2. The remaining players on the roster.

The minimum required innings in the field and the required time(s) at bat shall be suspended for the continued part of a suspended game as well as Article 19 and Article 20.
